ULTRACADE's sophisticated accounting engine has the ability to track earnings and game play times for each game and can display the results sorted by name, manufacturer or earnings. Also, ULTRACADE can save earnings to a floppy disk for use with spreadsheet and financial applications.

The easy-to-use operator menus give access to coin and game settings.

Configure the menu to display any number of games, from 1 to 1000!

Universal ROM Adapter

UltraCade Technologies Latest innovation helps bring more content to the UltraCade platform. This proprietary interface adapter allows you to use ROM chips from existing PCB's and run them on the UltraCade system.

Support for many games including Pac-Man, Ms. Pac-Man, Dig-Dug, Galaga & more. New Neo-Geo compatible adapter board is available allowing over 100 Neo-Geo titles to run on your Ultracade machine.

This unique adapter allows us to take existing working games and adapt them to the UltraCade platform, expanding the library of available games.

- *Pac-Man™
- *Metal Slug™
- *Ms. Pac-Man™
- *King of Fighters™
- *Galaxian™
- *Samurai Showdown™
- *Galaga™
- & 100's More!!!

Pac-Man, Ms. Pac-Man, Dig-Dug, Galaxian & Galaga are trademarks of Namco Ltd. UltraCade Technologies is not an authorized distributor of Namco products, and only resells used Namco games. We thoroughly inspect all Namco products to insure they are legal copies and are legitimately available for resale. All Universal ROM adapter games are disassembled and checked for legality before being installed on the Universal ROM adapter.
